Every **tier 3** row becomes a QUEUE item with a location. That is what you came for — a tier-3-free session and a tier-3-heavy session are both good outcomes; an unrecorded one isn't.

PROBES — RECORD EVERY ANSWER INDIVIDUALLY, BEFORE ANYONE CONFERS

PROBE	P1	P2	P3	P4	P5 (HOST)	P6 (YOU)
A · "What do you do on your turn?" (collect → cast → learn)						—
B · 2 counters, cast 2 spells → learning actions? (answer: 2)						—
C · "Use the new Enchantment's capacity now?" (answer: no, next turn)						—

*Probe B is the F1 datum — the question that failed in Sessions 1 & 3 and passed in Session 4 from the online reference. Note for each player whether they read **paper** or **phone**.*
